

UNIVERSITY OF
LIVERPOOL

**ARE YOU A CHILD/ YOUNG PERSON
AGED 8-18 YEARS OLD WHO HAS BEEN
DIAGNOSED WITH BEHCET'S DISEASE?**

Our team from Alder Hey Children's Hospital and the University of Liverpool are doing research to explore how Behcet's disease impacts children and young people

We would like to hear from you about your experience with Behcet's disease. We will be asking questions about symptoms, feelings, and social life. The interview will be remote via Zoom/Teams/landline, or face to face depending on your preference.

If you would like to take a part in our study, please contact us on this email Eman.alqahtani@alderhey.nhs.uk there will be £20 Amazon vouchers for all participants.
